

Key Features

- Sample can be weighed accurately in the field as well as the laboratory
- Dust and splash water resistant (IP 54)
- Built-in calibration program
- Weighing capacity 2000 or 4000 gram

This electronic, battery-operated balance is available in two variations:

- 98.02.04 Weighing capacity 2000-gram, 0.1 g accuracy, weighing plate dimensions 130 x 130 mm
- 98.02.08 Weighing capacity 4000-gram, 1 g accuracy, weighing plate dimensions 170 x 150 mm

The housing is dust and splash waterproof according to IP rating 54. The various functions of the balance can be controlled easily using the four menu buttons. To adjust the accuracy of the balances, a built-in calibration program can be used.

The balance has a stainless-steel weighing plate. Includes protective cover and adjusting weight.

Specification	
Power source	mains adapter 230 V or 9 V battery
Weighing plate dimensions	130 x 130 mm / 170 x 150 mm
Weighing capacity	2000 / 4000 g
Accuracy	0.1 / 1 g
Weight unit	metric, grams
